

# Wireless Network Guide for Android Devices

1 On your device running Android, start by tapping the **Settings** icon:

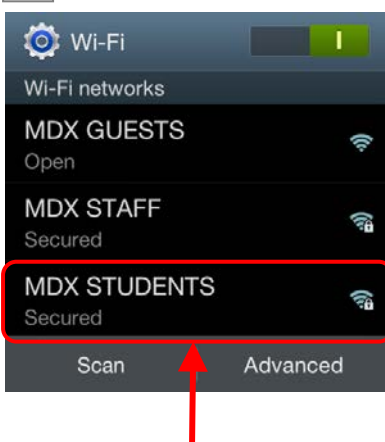

2

On the Settings page, select **Wi-Fi**, and make sure it is switched on.

3

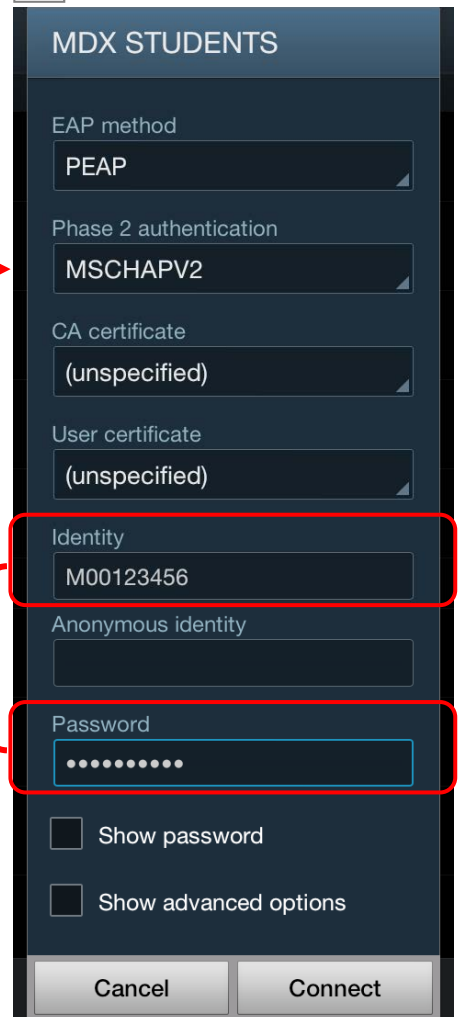

You will then be asked to choose a network. Tap on **MDX STUDENTS**, and you will be prompted for a password.

Make sure to indicate the correct authentication and certificate to connect.

Enter your MISIS Number (e.g. M00123456) in **Identity** and the **Password** that logs you into University Computers. Please ensure that you have typed it correctly. Tap on **Connect**.

4

5

Check status to indicate a successful connection to the **MDX STUDENTS** network.

You will now have access to the internet, as well as all university resources.
